

VL02

LTE WIRED

ASSET TRACKER

Product Description

EQUIPMENT

Introducing the VL02: a versatile GPS tracker tailored for industrial and commercial fleet applications. Its standout feature? A compact size with an entry level price point, perfect for diverse industries—from rental agencies and transportation to construction equipment and more. Equipped with Ignition detection and run time to tamper and vibration alerts, this tracker goes beyond the basics, for seamless integration with peripherals. Its discreet nature allows for seamless installations, enabling you to optimize operations and enhance overall efficiency across your fleet.

Product Features

- Ignition Detection Status
- Alerts- Tamper, Vibration, Geofence
- IP65 Rugged Design
- Emergency SOS Button
- 300mAh Battery
- Native Geotab Integration

Fueling your fleet with intelligence.

Product Specifications

Dimensions

4.15 x 2.24 x 0.85in
105.5 x 57.0 x 21.8mm

Weight

3.66oz
104g

Operating temperature

-4°F to 158°F
-20°C to +70°C

IP rating

IP65

Input voltage

9-36VDC

Accessories

SOS button, Relay, RFID reader

Battery

300mAh/3.7V industrial-grade Li-Polymer battery

Connectivity

LTE Cat-M1/NB2: B1/B2/B3/B4/B5/B12/B13/B28/B66

Alerts

Motion, Vehicle battery, Power disconnect

LED indication

Cellular (Green), Power (Red), GNSS Status (Blue)
