

VL02

LTE WIRED

ASSET TRACKER

Product Description

EQUIPMENT

Introducing the VL02: a versatile GPS tracker tailored for industrial and commercial fleet applications. Its standout feature? A compact size with an array of accessory options, perfect for diverse industries—from rental agencies and public transportation to construction equipment and more. Equipped with ACC detection, an SOS button, and remote fuel/power cutoff, this tracker goes beyond the basics, offering multiple I/Os for seamless integration with peripherals. Its customizable nature allows for tailored configurations, enabling you to optimize operations and enhance overall efficiency across your fleet.

Product Features

- Ignition Detection Status
- Alerts- Tamper, Vibration, Geofence
- IP65 Rugged Design
- Remote Cut-Off (Fuel/Power)
- Emergency SOS Button
- 300mAh Battery
- Multiple I/Os for Sensors
- Native Geotab Integration

TRAILERS

Fueling your fleet with intelligence.

Product Specifications

Dimensions

4.15 x 2.24 x 0.85in
105.5 x 57.0 x 21.8mm

Weight

3.66oz
104g

Operating temperature

-4°F to 158°F
-20°C to +70°C

IP rating

IP65

Input voltage

9-36VDC

Accessories

SOS button, Relay, RFID reader

Battery

300mAh/3.7V industrial-grade Li-Polymer battery

Connectivity

LTE Cat-M1/NB2: B1/B2/B3/B4/B5/B12/B13/B28/B66

Alerts

Motion, Vehicle battery, Power disconnect

LED indication

Cellular (Green), Power (Red), GNSS Status (Blue)
